CORRELAID

GOOD CAUSES. BETTER EFFECTS.

WHO WE ARE

CorrelAid is an independent, non profit network of more than 1.300 dedicated data scientists throughout Germany, the Netherlands and France. Our volunteers are mostly students and young professionals with diverse technical skillsets across different technologies.

WHAT WE DO

Our teams want to share their data analysis skills with civil society and the social sector. We pursue the mission to improve the world through data science for social good.

Our work can be divided into three pillars:

DATA STRATEGY

Theory of Change
Impact Indicators
Data Flow Mapping
Tool Integration
Condition for a solid Database
Legal Framework

DATA COLLECTION

Research Design
Survey Design
Survey Tools
Database Management Systems
Data Collection from APIs
Web Scraping

DATA ANALYSIS

Classification
Exploration
Prediction
Visualization
Network Analysis
Reporting
