CORRELAIDX

GOOD CAUSES. BETTER EFFECTS.
LOCAL IMPLEMENTATION

WHO WE ARE

CorrelAidX is the decentralization of the CorrelAid network. We use local structures to facilitate the collaboration among our data scientists and local NPOs.

WHAT WE DO

Our teams share their data analysis skills with civil society. Also, it is our goal to establish regional networks for motivated data scientists and organize workshops & events for the data science community and our partners.

DATA STRATEGY

Theory of Change
Impact Indicators
Data Flow Mapping
Tool Integration
Condition for a solid Database
Legal Framework

DATA COLLECTION

Research Design
Survey Design
Survey Tools
Database Management Systems
Data Collection from APIs
Web Scraping

DATA ANALYSIS

Classification
Exploration
Prediction
